Running from your own AWS account

Running from your own AWS account

This workshop assumes you have access to Amazon Bedrock in the AWS Console, and that you have a profile you can use to access Bedrock programmatically.

In the AWS console, select the region from which you want to access Amazon Bedrock.

At the time of writing, this workshop will work best from us-west-2 (Oregon) region.

Please proceed to [Knowledge base for Amazon Bedrock](#)

If you're running this workshop from your own AWS account, you will incur costs associated with the resources and services used. It's important to review the pricing information for Amazon Bedrock and any other AWS services utilized.
