

Event ends in 2 days 15 hours 39 minutes.

Event dashboard > Agents for Amazon Bedrock > Prerequisites

Prerequisites

Before you can create an agent, you need to complete the following prerequisites:

1. Download [api-schema](#) zip file and extract the content. Confirm you have 3 files and and navigate to **S3 console** to create a folder **api-schema** in S3 bucket (starts with **create-customer-resources-kb-bucket**) and upload them. Follow the [instructions](#) in AWS documentation if need be.

2. Navigate to **Lambda** console and Open the [Functions](#) page. You will find functions as below and we will use them as agents in the subsequest workshop steps.

• **create-customer-resources-CreateLoanFunction** - Bedrock agent create loan function

• **create-customer-resources-MLSLookupFunction** - Bedrock agent MLS Lookup function

• **create-customer-resources-LoanCalculatorFunction** - Bedrock Insurance agent Loan Affordability Calculator
